Work Experience

Product Manager

Otolane, Mississauga, ON | Sep 2023 - Present

- **Eliminated odometer-discrepancy arbitrations (leading to 0 cases/mo)** by shipping **computer-vision odometer OCR with validation**, removing loss exposure and dispute overhead.
- Formalized **Voice of Customer** (surveys, interviews, in-person meetings) → prioritized roadmap items that drove **car inspection** adoption from **30% → 65%** in two releases.
- Built an **adoption analytics** stack - Google Analytics, Salesforce dashboards and reports; reduced fraud risk by **15%** and ensured compliance in vehicle transactions.
- Integrated **Salesforce** and **3rd-party APIs** to automate quoting/ops, improving data quality, auditability, and compliance tracking.
- Expanded **transportation and floorplan financing** with compliance guardrails, improving ROI **~15%** while ensuring regulatory readiness
- Shipped a **self-serve Knowledge Base** with FAQs and troubleshooting trees.

Product Owner

TRADE X, Mississauga, ON | Oct 2022 - Aug 2023

- Reduced **data discrepancies 80%** post-migration, restoring reporting accuracy and improving stakeholder decisionmaking.
- Ran bi-weekly prioritization workshops for a 10-person squad; achieved **98% milestone completion** and tighter alignment to business objectives.
- Built dashboards and KPI frameworks for accounting, sales, and logistics, **establishing conversion tracking** and data-driven operating rhythms.
- Led structured **UAT**, cutting reported production bugs by **30%** and increasing release confidence.
- **Accelerated delivery timelines** across **10+ cross-team projects** by removing blockers and tightening execution loops.

Product Owner

Inteloom, Gatineau, QC | Jun 2022 - Sep 2022

- Automated and optimized workflows for an **RPA platform**, driving a **40% reduction in process execution time** for small business customers.
- Mapped end-to-end data flows for a B2B SaaS project management tool, **reducing onboarding time 30%** and **lifting team productivity 25%**.
- Authored user stories and acceptance criteria; partnered with QA to define test cases, **boosting test automation coverage 50%**.
- Collaborated with UI/UX on user-focused interfaces, **increasing retention 60%**.
- Conducted risk assessments and mitigation plans, **cutting project delays 20%** and improving delivery predictability.

Senior Business Analyst

EPAM, Katowice, Poland | Jun 2021 - Jun 2022

- Drove a **0→1** product for **Nordstrom's B2B Supply Chain**; identified **15** critical requirements, **reducing launch time 30%** for new Direct Delivery across all 50 states.
- Produced business process diagrams and workflows that **improved delivery time**, lowered costs, and lifted customer satisfaction.
- Managed front-end tickets and resolved back-end issues using **SQL** and complex queries to unblock delivery.

Product Owner

Blue Prism, Kharkiv, Ukraine | Aug 2017 - May 2021

- Led the redesign of a **legacy RPA system**, transitioning from a rigid **desktop** application to an intuitive **B2B SaaS web-based** platform, projected to enhance user engagement by **40%** while reducing onboarding time by **30%**.
- Validated **Figma** designs with the **UI/UX team** to ensure compliance with business and user requirements, aiding in the transformation of a robust desktop application into a modern web solution.
- Managed **JIRA** backlogs, created epics, and detailed user stories for both backend and frontend functionality.
- Participated in **Scrum ceremonies** so that teams could stay aligned, prioritize tasks effectively, and ensure timely delivery of project milestones.
- Created **product documentation and user guides** to provide clear instructions, ensure ease of use, and support both internal teams and end users.
